

Civil Crew Foreman

Job Description

Civil Crew Foremen will manage the day-to-day activities of a group of Civil Technicians and will work directly with the construction of tower foundations and cell tower site compounds. Also, Civil Crew Foremen will work with their crew to perform maintenance and cell site compounds. They will act as a team leader and mentor to less-experienced Civil Technicians. Civil Crew Foremen must be able to follow instructions accurately and complete assigned courses of action safely.

Civil Crew Foremen must have knowledge of the hazards associated with construction equipment and working on or near energized lines and equipment. They must be able to use and care for hand tools and mechanical equipment. They will travel extensively throughout the mid-American states.

Requirements:

- Communicate orally and in writing.
- Must have 3+ years of experience working with civil crews.
- Must be a well-organized self-starter with a strong attention to detail.
- Willingness to take hands on approach in leading their team through demonstration.
- Must have experience building tower foundations
- OSHA safety trained and First AID/CPR trained.
- Highly organized and be able to effectively report verbally and written reports back to the Construction Manager.
- Must have experience with completing "close out" packages.
- Must have experience with customer interfacing and problem resolution.
- Must maintain level of excellence in crew's quality of work and mindset.
- Must take responsibility for crew's equipment, tools, vehicles and trailers
- Possession of a valid driver license and be able to pass the Motor Vehicle Records check
