TOWER SERVICES

Volume 1, Issue 1

Specializing in cell tower construction since 2012

## NEWS CLIPS

- Stout Tower adds new client: On June 15, STS became an officially licensed vendor of T-Mobile, our company's 9th client.

- Website facelift: This summer, STS is updating its website. These updates include new photos, updated biography information of our team members and a new design layout.

- STS is now on LinkedIn: Help us grow our following and get updates on what we've been up to recently

- New faces at STS: This past month, we brought on board three new team members: Brandon Hanson, Niu Taunaholo and Drew Romeo.

## IN HIS OWN WORDS

*"For many, summer is a time where business slows down, and folks start to think about relaxation and vacation. This is not the case for Stout Towers. We've been busy building sites across the Midwest, with our crews working in Missouri, Indiana, Ohio and Pennsylvania. We've brought three new crew members on board. Our maintenance team headed out west to do site cleanups in Montana, Nebraska and Iowa. We've expanded our marketing reach by connecting with other folks in the industry throughout our LinkedIn page. And, I am proud to say, our company added its ninth client, T-Mobile. To share all of this good news, Stout Towers has decided to begin publishing a quarterly newsletter. These newsletters will feature company updates, a map of where we're currently working and photos of tower sites we have completed. Thank you for reading our first volume, and I hope you enjoy its content."*

## DID YOU KNOW?

Stout Tower Services can construct a raw land site in fewer than two weeks. For example, it took only 11 days from start to the stacking of our Wilson tower.
